

Techy Teachers: Seesaw Scavenger HUNT

Grab an iPad and get ready for some FUN exploring **Seesaw: The Learning Journal!** We will start by having you experience the student perspective before we venture into the teacher and parent side.

Remember to think about what your kids could do with this tool during this project!

Complete the challenges below... you have 30 minutes!

Seesaw QR CODE: Use the attached QR code to sign into our Techy Teachers class – locate your animal so you know what to look for when posting! **DON'T FORGET** to wait for the green check mark to ensure your item is successfully uploaded.

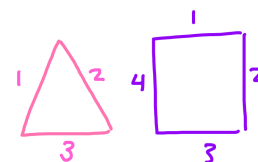

Seesaw PHOTO FEATURE: Use the photo feature to take an individual selfie – don't forget to turn the camera around! Before you upload it, add a drawing or text, as well as an audio message sharing one interesting fact about you!

Seesaw VIDEO FEATURE: Take a 20 second long video showing and explaining your classroom or a space in the school. Don't forget to tell us what makes it AWESOME!

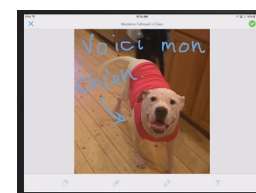

Seesaw DRAW YOUR MATH SKILLS: Using the drawing feature, draw and solve a math problem of your choice for us! Get creative! Tap into some of the math curriculum you cover!

Seesaw ADDING STUDENTS TO A POST: Find a new friend, or two friends or three or four and take a selfie with them! Try tagging all those people in the photo before you upload it!

Seesaw DRAW & RECORD FEATURE: Try out the draw and record feature using a sample of a student's work (if you forgot a sample, use something on the school walls). Take a photo of their work first, then, click draw and tap the REC button. While you draw, your voice will be recorded. Highlight important parts, showcase labeling, how can this fit with your grade level?

Seesaw NOTE FEATURE: Write a Haiku poem, share a quote, or tell us a joke using the note feature! How could your students use this feature?

Seesaw LINK FEATURE: Share your favourite educational link with us by copying it into the clipboard and click on add link! Type text and tell us why you love it!
